

NudgeHQ

Simple brand summary for content creators

Less chasing. More clarity.

Proudly made in India

A smarter daily work system for modern teams.

NudgeHQ helps teams share updates, track tasks, surface blockers, and give managers clarity without constant follow-up.

WHAT WE SOLVE

We remove work chaos.

Many teams waste time asking for updates again and again. NudgeHQ puts updates, tasks, blockers, and action in one clean place so everyone stays aligned.

- Managers do not need to chase every person for status.
- Employees know where to update and what matters.
- Founders get visibility without checking many tools.

MOTTO, AIM, VISION

Built to make work feel lighter.

- **Motto:** Less chasing. More clarity. Better work.
- **Aim:** Make daily work simple, clear, and easy to manage.
- **Vision:** Create a calmer work system where teams move with focus, not confusion.

HOW TO EXPLAIN IT SIMPLY

What each person gets

- **Employees:** a place to update work, manage tasks, and stay organized.
- **Managers:** a dashboard that shows who updated, who is stuck, and what needs action.
- **Admins/Founders:** a clear view of team activity, setup, and momentum.

WHY IT FEELS DIFFERENT

Not just a task app.

NudgeHQ mixes team updates, personal planning, manager visibility, and AI help in one workspace. That is why it feels like a daily work operating system, not just another boring dashboard.

Social + U Space

team + personal focus

Manager clarity

updates + action

NudgeAI help

clean updates + summaries

NEW FEATURES

What we recently added

- Manager Morning Brief for quick daily priorities
- No Update Alert for missing updates
